MISSION

To engage in providing skill development training and make available affordable employment oriented and placement-linked training to youth across the country and contribute towards the improvement of the socio-economic status of the underprivileged.

By Tapping strengths & talent of an individual candidate we look forward to provide a pathway to accomplish a mission of molding better human beings for the world.

To shape the future of individuals to build a healthy nation. To sustain and promote skill development by imparting quality training.

Growing Business of Private Training Partners by providing consultation and technology support.

OUR CORE VALUES

1

Loyalty

We provide outstanding service through teamwork, accountability and innovation of which is reflected in the quality of our results.

2

Passion

We are passionate to empower everyone in the ecosystem of vemosa skills.

3

Commitment

There a difference between Interest and Commitment. when you're interested in doing something, you do it only when it's convenient.

4

Technology

"It has become appallingly obvious that our technology has exceeded our humanity."

5

Innovation

"Our continous innovation is the key of success for all the stakeholders"

6

Team Work

Teamwork, experience, accountability and innovation – all of which is reflected in the quality of our results.

COME TOGETHER AND WORK ON FAIR AND FINE REVENUE MODEL OF SKILLING AND CERTIFYING THE STUDENTS.

National Skills Qualification Framework (NSQF)- Features and Advantages.
Cabinet Committee on Skill Development has approved the
NSQF/National Skills Qualification Framework

- This quality assurance framework organises qualifications as per a series of levels of knowledge, skills and aptitude.
- The levels are defined as learning outcomes which must be possessed by the learner through either of the following types of learning:
 - Formal learning
 - Non-formal learning
 - Informal learning
- The quality assurance framework will also dispel the issues associated with lack of uniformity in qualifications and/or equivalence of degrees/diplomas/certificates which impacts the employability and mobility of students.
- The framework has been anchored and operationalised by the NSDA or National Skill Development Agency under the Ministry of Finance.
- The NSQF aims to coordinate and harmonises skill development in the public as well as private sector
- It is a nationally integrated competency and education linked skill framework which seeks to offer horizontal as well as vertical pathways within vocational education and training as well as general and technical education.
- This framework links one level of learning to higher ones.
- NSQF comprises 10 levels of learning where entry level is Level 1 and the most advanced level is Level 10 .

Facts and Stats

Various international organisations have also been involved in the development of quality assurance skill development frameworks including OECD, ILO, WB and the EU

NATIONAL SKILLS QUALIFICATIONS FRAMEWORK (NSQF)

The National Skills Qualifications Framework (NSQF) is a competency-based framework that organizes all qualifications according to a series of levels of knowledge, skills and aptitude. These levels, graded from one to ten, are defined in terms of learning outcomes which the learner must possess regardless of whether they are obtained through formal, non-formal or informal learning. NSQF in India was notified on 27th December 2013. All other frameworks, including the NVEQF (National Vocational Educational Qualification Framework) released by the Ministry of HRD, stand superceded by the NSQF.

Under NSQF, the learner can acquire the certification for competency needed at any level through formal, non-formal or informal learning. In that sense, the NSQF is a quality assurance framework. Presently, more than 100 countries have, or are in the process of developing national qualification frameworks.

The NSQF is anchored at the National Skill Development Agency (NSDA) and is being implemented through the National Skills Qualifications Committee (NSQC) which comprises of all key stakeholders. The NSQC's functions amongst others include approving NOSs/QPs, approving accreditation norms, prescribing guidelines to address the needs of disadvantaged sections, reviewing inter-agency disputes and alignment of NSQF with international qualification frameworks.

Specific outcomes expected from implementation of NSQF are:

Mobility between vocational and general education by alignment of degrees with NSQF
Recognition of Prior Learning (RPL), allowing transition from non-formal to organised job market
Standardised, consistent, nationally acceptable outcomes of training across the country through a national quality assurance framework
Global mobility of skilled workforce from India, through international equivalence of NSQF
Mapping of progression pathways within sectors and cross-sectorally
Approval of NOS/QPs as national standards for skill training

The NSQF provides for a five year implementation schedule which provides that after the third anniversary (27.12.2016) date of the notification of the NSQF,

Government funding would not be available for any training/ educational programme/ course which is not NSQF-compliant.

All government-funded training and educational institutions shall define eligibility criteria for admission to various courses in terms of NSQF levels.

The recruitment rules of the Government of India and PSUs of the central government shall be amended to define eligibility criteria for all positions in terms of NSQF levels. The State Governments and their PSUs shall also be encouraged to amend their recruitment rules on above lines.

After the fifth anniversary (27.12.2018) date of the notification of the NSQF, It shall be mandatory for all training/educational programmes/courses to be NSQF-compliant All training and educational institutions shall define eligibility criteria for admission to various courses in terms of NSQF levels.

Why Choose **Paid Courses**

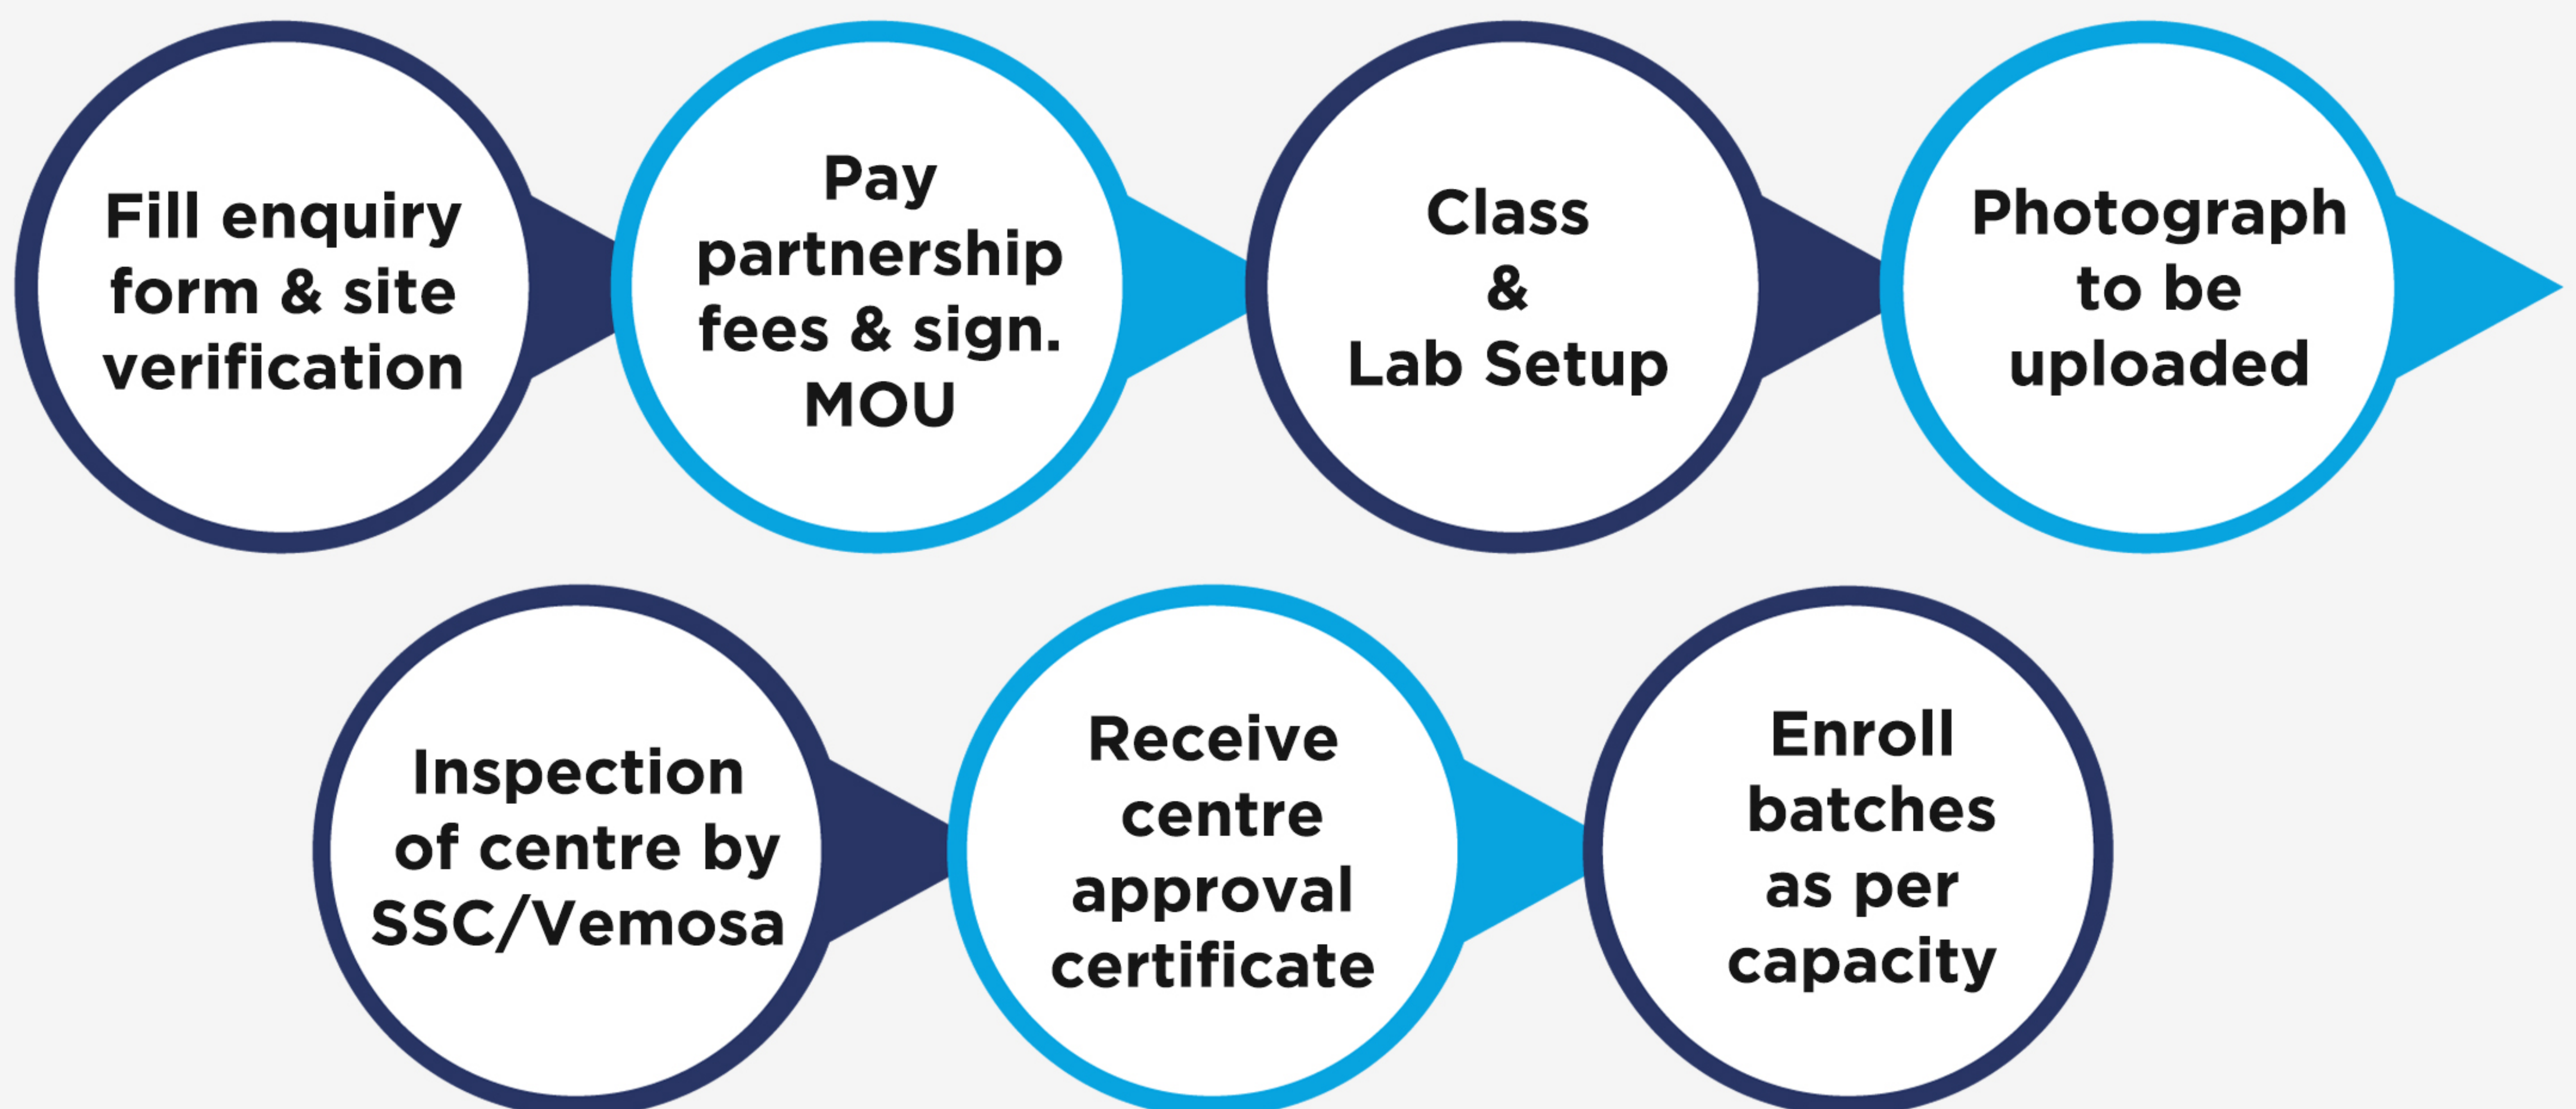

- Sponsored schemes are limited and not a sustainable mode of business, Huge losses come with waiting time.
- You can choose your own course and Sector according to market demand.
- No bar of Turnover and minimum experience.
- Very High Percentage of successful Placement Linked Training.
- Pre-paid mode of training.
- No dependency on the Government to release funds.
- NCVET/ NSQF Approved Industry relivent courses.
- Certificate verification on Skill India Government Portal (skillindia.gov.in)
- Network of experienced teams for Placement and other sponsored training programmes from time to time to boost up your organization efficiency.
- Be your own Boss.
- Low Investment and High Returns.

JOIN WITH INDIA'S LEADING SKILL DEVELOPMENT COMPANY

Associate Partnership Program

For Smoothly Accreditation of any training centres following Steps to must be followed:

Associate Partnership fees - 25,000/-
(Centre affiliation & Branding Cost)

Certification & Assessment Fees

NSQF LEVEL	L1 - L4	L5 - L6	L7 & ABOVE
FEES	2000/-	2500/-	3000/-

Note - For Courses in the Healthcare Sector, the Assessment Fee will have to be paid separately.

LIST OF COURSES UNDER IT SECTOR
